### **Impala Rustenburg 1 Shaft Fall of Ground - Update**

**Johannesburg, 20 May 2016:** Following yesterday's announcement that the body of one of the missing miners was located underground after the fall of ground incident at Impala Rustenburg's 1 Shaft, management can now confirm that the body of 40 year old Mr Tanki Samuel Lepitikoe was successfully recovered today by mine rescue personnel and has been brought to surface.

Mr Lepitikoe, originally from Lesotho, is employed as a rock-drill operator at Impala Rustenburg with 4 years' service with the company. His family will continue to receive counselling and support from the mine following his tragic passing, with kind assistance from the Department of Mineral Resources and the Association of Mineworkers and Construction Union.

Rescue efforts continue in an attempt to find Mr Ohemile Moses Maamogwa who has been missing since the incident occurred on 17 May 2016. Fifty five year old Mr Maamogwa, originally from Morokweng Village in Vryburg, is employed as a rock-drill operator at Impala Rustenburg with 31 years' service with the company.

Our thoughts and prayers remain with all during this very difficult time.
