FORWARD LOOKING STATEMENT

Certain statements contained in this presentation other than the statements of historical fact contain forward-looking statements regarding Implats’ operations, economic performance or financial condition, including, without limitation, those concerning the economic outlook for the platinum industry, expectations regarding metal prices, production, cash costs and other operating results, growth prospects and the outlook of Implats’ operations, including the completion and commencement of commercial operations of certain of Implats’ exploration and production projects, its liquidity and capital resources and expenditure and the outcome and consequences of any pending litigation, regulatory approvals and/or legislative frameworks currently in the process of amendment, or any enforcement proceedings. Although Implats believes that the expectations reflected in such forward-looking statements are reasonable, no assurance can be given that such expectations will prove to be correct. Accordingly, results may differ materially from those set out in the forward-looking statements as a result of, among other factors, changes in economic and market conditions, success of business and operating initiatives, changes in the regulatory environment and other government actions, fluctuations in metal prices and exchange rates and business and operational risk management. For a discussion on such factors, refer to the risk management section of the company’s Annual Report. Implats is not obliged to update publicly or release any revisions to these forward-looking statements to reflect events or circumstances after the dates of the Annual Report or to reflect the occurrence of unanticipated events. All subsequent written or oral forward-looking statements attributable to Implats or any person acting on its behalf are qualified by the cautionary statements herein.

SAFETY PERFORMANCE

- FIFR 0.058 per million man-hours worked
- TIFR 9.78 per million man-hours worked
- Regrettable increase in the FIFR despite valuable improvements in safety
  - The Group achieved 6.9 million fatal free shifts
- Strategy targets safe behaviour, an inherently safe work environment and leading safety practices
- We continue to place a strong focus on training:
  - 139 teams have participated in mobilisation training programmes this year
  - More than 4 000 employees attended occupational health and safety skills programmes
  - Executives, E and D level production managers have attended the Zero Incident Process for Leaders
- Invested a further R221 million in safety initiatives
Implats remains committed to zero harm and supports work stoppages to manage direct dangers to safety and health.

We continue to engage with the DMR to highlight the impact of stoppages on safety and productivity/profitability.

### Annual Results September 2015

#### OVERVIEW

**FINANCIAL – KEY FEATURES**

- Revenue increased by 11.9% to R32.5 billion
  - Sales volumes improved by 6% to 1 273 000 (1 197 000) platinum ounces
  - Average rand exchange rate weakened 10.4% to R11.44 (R10.36)
- Gross profit of R1.6 billion down from R3.2 billion
- Gross profit margin declined to 5.0% from 11.2%
- Headline earnings per share declined 58% to 36 cents per share
- Cash reserves at year end of R2.6 billion
- No dividend declared

### HEPS

Gross refined platinum production increased by 8.3% to 1 276 000 ounces

Mine-to-market output was 15.9% higher at 1 142 700 ounces of platinum

- Strong operational recoveries at Impala Rustenburg and Zimplats in H2 FY2015 following the post-strike ramp-up and the closure of Bimha respectively

Third party production decreased by 30.7% to 133 300 ounces as once-off Northam material was treated in the previous year

Group unit costs, which were severely impacted by the ramp-up at Impala Rustenburg, increased by 14.4% to R22 222 per platinum ounce (R20 555 per platinum ounce in Q4 FY2015)
Achieved stated production target

Performance impacted by
  - Ramp-up post industrial action
  - Safety stoppages

Milled throughput up 48.8% to 9.2 Mt

Refined platinum production up 40% to 575 200 ounces

Unit costs up 8.4% to R23 884 ppt oz impacted by ramp up (R20 122 per platinum ounce in Q4 FY2015)
Contingency panels have improved to 1.5 per team.

</table>
- Production impacted by precautionary closure of Bimha Mine

- Production losses mitigated by:
  - Successful redeployment of 6 out of 8 production fleets
  - Open pit mining from April 2015
  - Continued ramp up of newly developed Mupfuti Mine

- Tonnes milled down 13.1% to 5.16 million

- Platinum in matte down 20.7% to 190 000 ounces
  - Impacted by lock-up of 27 000 ounces after furnace outage in June 2015

- Re-establishment of Bimha mine reduced to US$92 million from US$142 million

- Commenced first stage refurbishment of BMR
- H1 impacted by industrial action and safety stoppages
- H2 regained momentum with operating metrics on track
- Tonnes milled down 7.4% to 1.66 million
- Head grade remained flat at 4.19 g/t
- Concentrator recoveries improved from 85.4% to 86.4%
- Platinum in concentrate production down 6.2% to 73 600 ounces
- Formal disposal process terminated in H2
Mine-to-market platinum production down 1.2% to 567,500 ounces
- Lower volumes from Zimplats following temporary closure of Bimha mine
- Industrial action and safety stoppages at Marula
- Increased production from Mimosa

Refined platinum production down from 192,400 ounces to 133,300 ounces
- Once off treatment of Northam concentrate in FY2014
OTHER OPERATIONS

Mimosa
- Tonnes milled up 5.4% to 2.59 million
- Head grade steady at 3.93 g/t
- Concentrator recoveries up to 78%
- Platinum in concentrate production up 6.5% to 117 400 ounces
- Unit costs down 11% to US$ 1525
  - Benefiting from higher volumes and cost rationalisation
- Capex US$ 30 million spend mainly for underground equipment
- 15% export levy suspended for two years

Two Rivers
- Tonnes milled up 2.5% to 3.36 million
- Head grade steady at 3.98 g/t
- Concentrator recoveries improved from 85.7% to 86.5%
- Platinum in concentrate production flat at 173 500 ounces
- Unit costs well contained up only 4.5% to R11 948
- Capex of R275 million
  - Fleet replacement, fine chrome recovery plant and employee housing
- Newly acquired Kalkfontein property being accessed

VEHICLE OWNERSHIP TRENDS

Source: SFA (Oxford), LMCA

World personal vehicle ownership (per '000 driving population)

Still below mature markets
Pt-rich diesel shares in Western Europe

- Diesel cars may have had some bad press recently, but the consensus forecast is that 46% of light vehicle powertrains sold in Europe in 2020 will be diesel, down from 51% in 2015.

**Platinum demand vs diesel shares in W. Europe**

Source: SFA (Oxford), LMCA
Global Platinum jewellery 2014: 3.030 million ounces*

- China: - 3%
- India: + 28%
- Japan: + 3.3%
- USA: + 8%
- RoW: 0%

Global Platinum jewellery 2015

- Expected to fall by 3%
- China lower
- India growth through the Evara Programme
- Japan growth
- USA growth

* PGI retail barometer
**Global Platinum ETF**
- 2014: +155K
- H1 2015: +50K

**Global Palladium ETF**
- 2014: +940K
- H1 2015: -86K

**Futures Market**
- Driven by sentiments
  - Fall in gross long interest on NYMEX
  - Increase in short interest on NYMEX

**WPIC**
- Stimulate investment by promoting:
  - Central banks holding of Pt as a reserve asset
  - Pt bars and coins
  - Pt accumulation plans
We remain bullish on long-term fundamentals for our major metals

- Captive PGM demand in emissions control technology
- Rising middle classes in emerging markets:
  - Low vehicle ownership rates
  - Increased spending power on jewellery
  - Capacity increases in chemical, agrochemical and oil production
- Continued supply challenges in South Africa
- Steady reduction of available stockpiles

However, in the short-term PGM prices will continue to be impacted by:

- Fragile global economic growth
- Negative investor sentiment towards commodities
- Anticipated South African supply during 2015 and 2016
- Excess metal stocks available to end users

Basket prices will remain lower until fundamentals overtake sentiment
- Platinum prices have overshot to the downside
- Unsustainable at these levels over the longer term
- Requires decisive action in the short term

Platinum price vs industry cost of production

Centiles represent the cost of mine production on a total cash cost basis excluding CAPEX

Source: SFA (Oxford), Bloomberg
Positive long term PGM fundamentals
Expect LOWER for LONGER prices

- Investment through the cycle
- Maintain optionality & position for the future
- Improve efficiencies through operational excellence
- Cash conservation
- Maintain our social licence to operate
Responding to low price environment

- Business plan: R930 million reduction as detailed in original 2016 business plan
  - Procurement, consumables, efficiencies, extra shifts, overtime, utilities

- Response plan: R640 million additional operating cost reduction
  - R320 million: Impala Lease Area
    - Development expenditure: Off-reef, re-development and associated spending
    - Impala: Re-assessment/rescheduling contracts, remuneration, support strategy
    - Refineries: Ammonium sulphate management, contract renewal terms
  - R20 million: Marula

- US$18 million: Zimplats
  - Negotiated price reductions on consumables and contractors, revised bonus targets, overtime

- R80 million: Central/G&A/other
  - Marketing, insurance and other central/G&A costs
**Capital budget reduced to R4.2 bn for FY2016**

IMPLEMENTING THE IMPALA LEASE AREA STRATEGY

**Transforming the Impala Lease Area**

- Transforming Impala Lease Area into more concentrated, lower cost operation
  - Consolidating and mining out old shafts
  - Managing transition to modern, more cost effective shaft complexes
  - Ensuring efficient use of mining, processing and refining infrastructure

- In current price environment intend to close 8 shaft and 12 shaft mechanised operations by December 2015
  - Swift action to remove ounces that are unprofitable in current environment
  - Impact on jobs being assessed and will be mitigated through redeployment

- 180 000 ounces cut from production over next five years
  - 145 000 ounces of unprofitable production
  - 35 000 ounces from capital rescheduling

- Capital expenditure on 17 shaft slowed

- Revised production profile for Impala Lease Area
  - c.815 000 to 830 000 Pt ounces by 2020 rather than c.850 000 Pt ounces by 2019
  - Ongoing focus on most profitable production profile, not fixed production target
STRENGTHENING THE BALANCE SHEET

Debt facilities being enhanced

- Facilities have been increased from R3.0 billion to R3.5 billion
- Tenure, on a portion of the facilities has been increased from one to two and a half years

Equity financing to secure delivery of the plan

- R4.0 billion ‘book build’ equity raising
  - Sufficient for delivery of strategic plan in the context of the current price outlook
  - Positions Implats to become more competitive over time
  - Implats will continue to be pro-active in managing the business
  - Committed to returning excess cash flow to shareholders as market conditions improve

- Equity raising process
  - Shareholder approval required
  - Circular to be distributed to all shareholders on 4 September 2015
  - Shareholder meeting to take place on 6 October 2015
  - Equity placing to occur thereafter
  - Fully underwritten by UBS subject to customary conditions
NEITHER THESE MATERIALS NOR THE PRESENTATION CONSTITUTES OR FORMS PART OF ANY OFFER OR INVITATION TO SELL OR ISSUE, OR ANY SOLICITATION OF ANY OFFER TO PURCHASE OR SUBSCRIBE FOR, OR ANY OFFER TO UNDERWRITE OR OTHERWISE ACQUIRE ANY SHARES IN THE COMPANY OR ANY OTHER SECURITIES NOR SHALL THEY OR ANY PART OF THEM NOR THE FACT OF THEIR DISTRIBUTION OR COMMUNICATION FORM THE BASIS OF, OR BE RELIED ON IN CONNECTION WITH, ANY CONTRACT, COMMITMENT OR INVESTMENT DECISION IN RELATION THERETO.
