Forward-looking statement

Certain statements contained in this presentation other than the statements of historical fact contain forward-looking statements regarding Implats' operations, economic performance or financial condition, including, without limitation, those concerning the economic outlook for the platinum industry, expectations regarding metal prices, production, cash costs and other operating results, growth prospects and the outlook of Implats' operations, including the completion and commencement of commercial operations of certain of Implats' exploration and production projects, its liquidity and capital resources and expenditure, and the outcome and consequences of any pending litigation or enforcement proceedings. Although Implats believes that the expectations reflected in such forward-looking statements are reasonable, no assurance can be given that such expectations will prove to be correct. Accordingly, results may differ materially from those set out in the forward-looking statements as a result of, among other factors, changes in economic and market conditions, success of business and operating initiatives, changes in the regulatory environment and other government actions, fluctuations in metal prices and exchange rates and business and operational risk management. For a discussion on such factors, refer to the risk management section of the company's Annual Report. Implats is not obliged to update publicly or release any revisions to these forward-looking statements to reflect events or circumstances after the dates of the Annual Report or to reflect the occurrence of unanticipated events. All subsequent written or oral forward-looking statements attributable to Implats or any person acting on its behalf are qualified by the cautionary statements herein.

Impala Rustenburg review

Paul Dunne

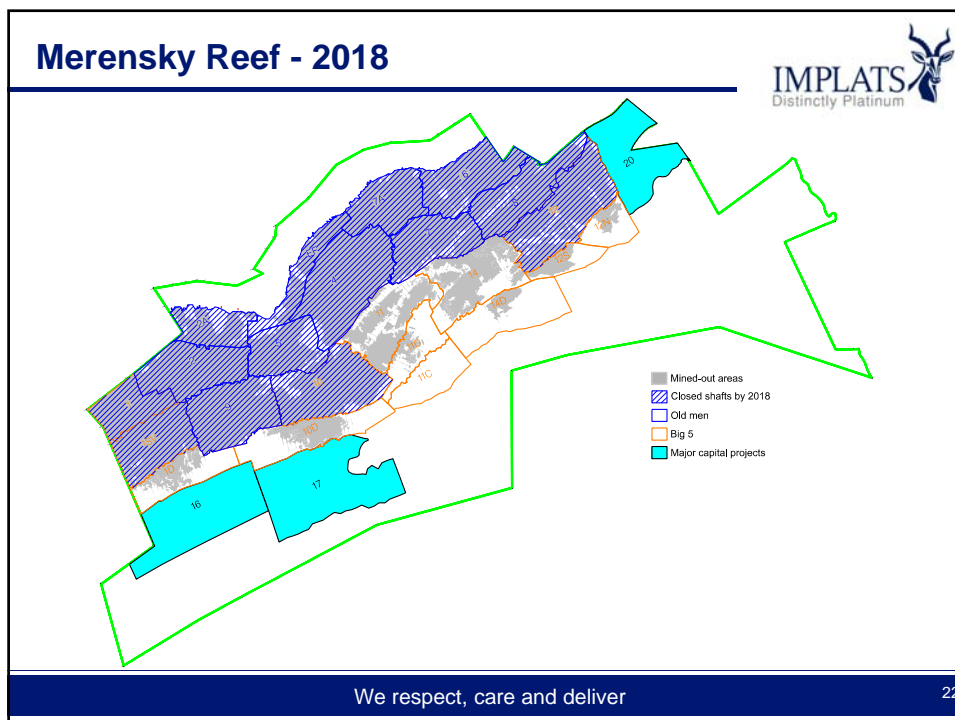

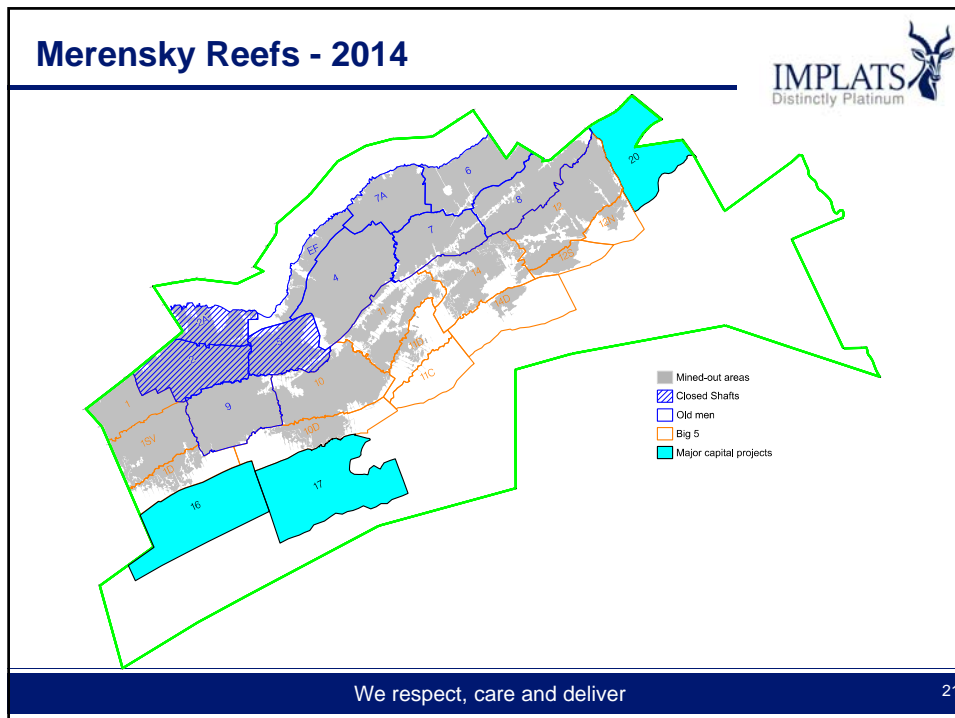

Constrained mining flexibility

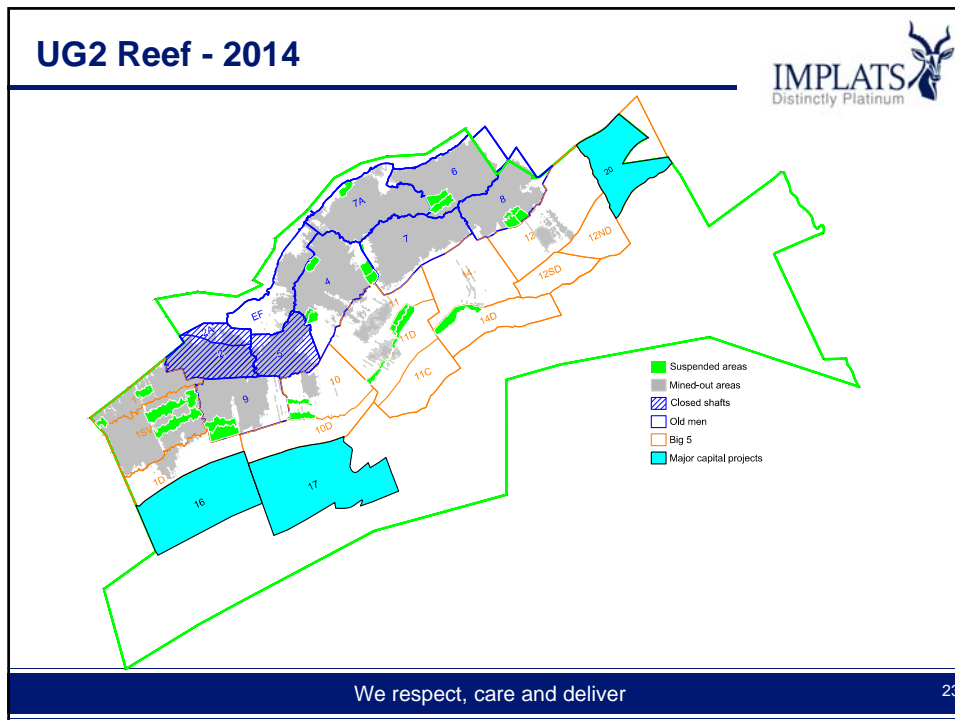

- Limited mining face availability
 - lower than planned primary development
 - backlog in construction, equipping and ledging
 - depletion of the old shafts

- Further impacted by:
 - challenging UG2 geology at 10, 12 and 14 Shafts
 - safety initiatives and stoppages
 - changing workforce dynamic
 - deterioration in mining quality

We respect, care and deliver

Initiatives

- Ore reserve flexibility
 - Proudfoot initiative
 - Dedicated development and construction management
 - Breast ledging
 - Increased development
- Quality mining
 - Grade reviews
 - Grade control observers
 - Team mobilisation
 - Incentive scheme
- Improved systems
 - Mine planning
 - Enhanced Production Scheduler
 - Geological information and diamond drilling
 - Predictive planning models

Conclusion

- Operating environment
 - Changed workplace dynamic
 - Impending wage negotiations
 - Margin squeeze
- Grow mine-to-market production
 - Execute operational plan at Impala Rustenburg to deliver 850 000 platinum ounces by 2018
 - Complete the 90 000 ounce Phase 2 expansion at Zimplats by 2015
 - Grow Marula from 70 000 to 86 000 ounces of platinum by 2016
 - Maintain production at other operations
 - Pursue third party and other processing opportunities
- We have a plan and we plan to deliver with respect and care
