

NEWS RELEASE

28 January 2008

Update on load shedding at Implats' operations

EMBARGO: For immediate release

<p>Ticker symbols: JSE: Imp LSE: Ipla ADR: Impuy</p> <p>Website: www.implats.co.za</p> <p>Shadwick Bessit +27 14 569 6560</p> <p>Les Paton +27 11 731 9018</p> <p>Bob Gilmour +27 11 731 9013</p>	<p>Impala Platinum Holdings Limited (Implats) continues to co-operate with Eskom in terms of reducing power usage at its operations. The company was involved in meetings with Eskom over the weekend and has agreed to assist in reducing sector demand by 10%. Currently Implats is receiving 50% of its power requirement and shifts were resumed at Impala Rustenburg last night. We are endeavouring to optimise our operations against our power allocation. Marula mining operations are currently operating in the same manner. Mineral Processes in Rustenburg and the plant at Marula are presently on minimum load.</p> <p>The impact on production at Impala Rustenburg is in the order of 3,500 ounces of platinum per day. Impala Refining Services (IRS) is receiving reduced inputs from suppliers also affected by power shortages. The full production and financial impacts will be estimated and communicated as soon as possible.</p> <p>The company remains in communication with Eskom and will attend a meeting with them tomorrow morning to discuss the further ramp up of operations. We will provide further updates as they become available.</p> <p>[Ends]</p>
